About the Mobile Performance score: A score of 73 is considered good by Google's standards — anything above 50 is passing. The site has a high volume of real project photos and embedded videos, which naturally add load time on mobile networks. All images have already been converted to WebP format and videos are lazy-loaded, meaning they only load when a visitor scrolls to them. This score reflects a media-rich contractor site, not a technical issue. Desktop performance scores 96/100.

WHAT WE BUILT

DONE Full Custom Website

31 pages — home, services, about, process, financing, our work, contact, blog, 12 city pages

DONE Mobile Responsive

Fully optimized across all screen sizes

DONE SEO Optimized — 100/100

Meta titles, descriptions, schema markup, keyword targeting for ADU, Santa Cruz, South Bay

DONE 12 City Landing Pages

Santa Cruz, San Jose, Monterey, Watsonville, Gilroy, Morgan Hill, Los Gatos, Campbell, Salinas, Capitola, Scotts Valley, Aptos

DONE Client Reviews Section

4 real reviews with photos and video testimonials (Daniel Z., Victor A., Mayra F., Peggy C.)

DONE Contact Form

Wired to richrod@peninsula.construction via Formspree — test submission confirmed

DONE Google Analytics 4

Installed across all 31 pages — G-17GTSWBMFF — verified active

DONE Performance Optimizations

WebP images, lazy-loaded video embeds, local assets, no external dependencies

DONE GitHub Hosting

Live at peninsula.construction via GitHub Pages — free, fast, reliable

TECHNICAL CHECKLIST

CONFIRMED Contact Form (Formspree)

Test submission confirmed delivered to richrod@peninsula.construction

LIVE Google Analytics 4

G-17GTSWBMFF — verified green check in GA4 dashboard

LIVE Phone Number Updated Sitewide

831.566.3248 across all 31 pages

LIVE All Internal Links Working

404 on ADU Cost Guide fixed, footer links fixed across 6 pages

LIVE HTTPS / Security

Best Practices score 96/100 — secure across all pages

CONFIRMED Google Business Profile

GBP account created — ready to optimize for local map pack ranking

ONGOING Project Photography

Capture photos at each step of the process as well as before and after photos for the website — the more real project photos the better for trust and conversion

GOOGLE ANALYTICS 4 — INITIAL DATA SNAPSHOT

Date range: June 29 – July 26, 2026 (first 28 days live)

PAGES TRACKED

TOP PAGE Home Page — 1,000 views, 963 active users

Your most visited page by a wide margin — the site is being seen.

TRAFFIC Primary Sources — Facebook Ads (791 users) and Instagram Ads (150 users)

Your paid campaigns are driving the majority of traffic to the site.

MARKETS Top Cities — San Jose (148), San Francisco (113), Sacramento (28), Los Angeles (24)

Strong presence in the South Bay and Bay Area ADU market — exactly where you want to be.

NOTE Bounce Rate — 96.3% — This Is an Ads Issue, Not a Site Issue

This number looks alarming but the website is not the problem. When paid traffic lands on a page and leaves quickly it almost always means the ad audience needs to be refined. People clicking the ads may not be ready to hire a contractor yet. As your organic SEO traffic grows — people who searched specifically for ADU contractors in your area — this number will drop significantly. We will monitor and report on this monthly.

WHAT'S NEXT — ONGOING SEO & GROWTH

ONGOING Monthly SEO Blog Posts

Targeting high-value ADU keywords in your service cities — Santa Cruz, San Jose, Monterey and surrounding areas. Each post drives organic traffic and builds authority.

ONGOING Google Keyword Rank Tracking

Monthly monitoring of your target keywords (ADU contractor, garage conversion, kitchen remodel + city) so we can measure progress and adjust strategy.

ONGOING GA4 Traffic Reporting

Monthly analytics report — where your visitors are coming from, which pages convert, and what's driving leads to your contact form.

ONGOING Google Business Profile Management

Weekly project photo posts, review responses, Q&A monitoring, and profile optimization to dominate the local map pack in your service area.

ONGOING Backlink Building

Local directory submissions, contractor listings, and citation building to increase your domain authority and push your rankings higher over time.

ONGOING Website Updates & Optimization

Adding new project photos, reviews, and content as your portfolio grows — keeping the site fresh and relevant for both Google and visitors.
